

PostgreSQL for Data Analytics

Danny Ma October 2021

About me

```
questions
                        everyone
                                          make
                                                       know
                         studies
    resources
                                    challenge amazing
  datascience courses
 help ~~~ analytics skills course machine join people start things really case Sql danny science work always one
  new journey think need comments python want datawithdanny
dont get of time agree follow focus community others first please ive would interested business
         using part link
